A CANADIAN REMEDY

For Costiveness, Irregularay and Debu wof the Digestive Organs, Inducing Headache, 'assitude, Nervousness, General Prostration of the Mind and Body, Paralysis, &c.

A moment's reflection ought to convince a sensible man A of the folly and danger of constantly dosing with t'athartic Medicines. The practice is pernicious and suicidal. An experience of forty years has taught me that the constantly increasing evils of indigestion are fearfully aggravated by the too free use of Cathartes. The American people are fast becoming a nation of dyspentics by their artificial modes of life. Drastic Cathartics increase the irritability, and prestrate the strength of the dicestive organs.

dicestive organs.

The Pills now offered are especially designed to allay this irritability, and at the same time to invigorate and strengthen all the functions of digestion, while they are gently laxative. They are anodyne, tonic and laxative. They are so mild and invigorating that one is not reminded by any disagreeable effects that he has taken modicine. Business Men. Students, Professional Men. Females, and all persons leading a confined or sedentary life, should

try them.
